The solar choice

Since 2009, LCEC has offered customers the choice of utilizing renewable generation systems, including solar. The program helps to offset all or part of the customer's energy usage. Electricity not used can be sent to the LCEC grid and at year-end the customer is paid for any reserves they haven't used.

LCEC
PEOPLE. POWER. POSSIBILITIES.

It's not just a job, it's a career

LCEC is an organization that is unique in many ways. From the cooperative's origins to today's modern values, we have grown. At the same time, we are proud to maintain a family atmosphere. Choose a career where you can find opportunity, challenge and endless possibilities.

People are our strongest asset.
