Purchase Your Swivel
Surge Suppressor Today!

SAVE 25%
off the \$99.00* price.

* While supplies last. Offer good only
on the six-outlet swivel.

LCEC provides utility-grade surge protection for your appliances and expensive electronics. The sensitive microprocessors in your electronics can be damaged by the long-term affects of small power surges. Don't be lulled into a false sense of security with a low-cost, plug-in power strip. Protect your investment before damage happens.

**For more information or to purchase
surge protection, call 997-7283 or visit
www.surgesense.com.**

ENERGIZING OUR COMMUNITY

LCEC has been working with local builders to promote the Good Cents Home (GCH) program for over 20 years. A GCH incorporates a number of energy-saving features providing the owner with a high quality, comfortable, energy-efficient home. These features can save homeowners up to 30 percent on heating, cooling, and water-heating costs.

Since energy costs are a significant part of monthly home budgets, a certified GCH with its energy-saving features can have a higher resale value too!

Ask your builder about the GCH program or visit www.lcec.net for more information.
