

With LCEC You Have The Power To Conserve Energy

LCEC's online Calc-U-Saver offers several tools that allow you to understand how your appliances contribute to your energy bill, how compact fluorescents can save you money on your lighting usage, and will estimate your annual home or business energy usage.

LCEC's online Calc-U-Saver makes it a snap to understand how to save energy by changing your current parameters and recalculating to create scenarios to compare with your base house or business.

To access the most effective methods for saving energy at your home or business, visit www.lcec.net and select *Energy Calculators* from the *Tools* menu.

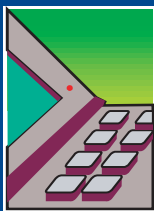

Happy Holidays!

The LCEC offices will be closed the following days during the holiday season:

Thursday, November 23
Friday, November 24

Monday, December 25
Tuesday, December 26
Monday, January 1

You can still conduct business with LCEC 24/7 online. Visit www.lcec.net to:

- View your bill
- Pay your bill
- Change your billing address
- Request new service/temporary to permanent service
- Disconnect service
- Submit a billing inquiry
- Request a security/street light repair
- Request a free energy survey
- Report energy theft
- Check the status of service requests
