

Thinking about building a home? Ask your builder about building an LCEC Good Cents Home

Why?

- ✓ A Good Cents Home provides the owner with an energy-efficient home.
- ✓ Since energy costs are a significant part of monthly home budgets, a certified Good Cents Home with its energy-saving features can have a higher resale value.
- ✓ Good Cents Home features can save homeowners up to 30 percent on heating, cooling, and water-heating costs.
- ✓ Additional thermal protection, along with the proper sizing of the air conditioning unit, optimizes the level of comfort by providing proper humidity removal while cooling the home.

SAVING ENERGY MAKES GOOD CENTS

LCEC's Procedure for Reporting an Inoperative or Malfunctioning Streetlight

LCEC has developed a simple procedure to report a streetlight or area light that is not working or malfunctioning. Simply fill out and submit a secure online service request at www.lcec.net.

You may also call our contact center at 1-800-599-2356 or 239-656-2300.

Please provide the following information to ensure a speedy repair:

- A description of the problem.
- A description of the location or the number located on the pole. The number should have alphabetic characters before and/or after it. Example: S9999XX
- Your contact information including phone number or address.

This message brought to you to ensure speedy service and in compliance with Florida statute 768.1382
