

“CAN”
you help
feed a
neighbor
in need?

You can help LCEC and the Junior League of Fort Myers fill the local community's food pantry during the 24th Annual Taste of the Town on Sunday, November 5, 2006. Drop your canned goods off at LCEC headquarters:
4980 Bayline Drive,
North Fort Myers.

All donations will go to the “The Local Soup Kitchen.”

In turn, The Local Soup Kitchen will continue to provide:

**Hot Meals for elderly
and shut-ins through Meals On Wheels**

Breakfasts for deserving children

Bag Lunches for day laborers

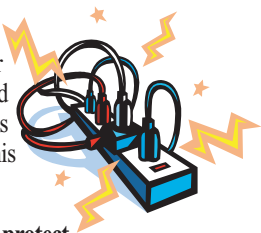

Hot Meals served daily at the food bank

Peace of Mind for the Storm Season

Between surges generated by Southwest Florida's storms and those generated inside your home, your appliances and electronics have many chances to be damaged or destroyed this summer.

The most effective way to protect your electronics lies in a two-stage plan:

Stage 1- Meter-based protection installed at the electric service entrance. This is designed to protect your major household appliances.

Stage 2- Point-of-Use protection installed inside your home. These devices are designed to protect your sensitive electronics.

LCEC customers can protect their appliances through LCEC's surgeSENSE program. You can lease the complete surgeSENSE package for \$5.95 plus tax per month, plus a one-time set-up fee or purchase it for \$299.95 plus tax.

With LCEC and surgeSENSE, you have the power to protect. Call 239-997-SAVE or 800-201-SAVE, or visit www.lcec.net.
