

#thankalinetman

In 2013, the United States Senate declared April 18 as National Lineman Appreciation Day. LCEC linemen are first responders during storms and work to operate and maintain the electric system daily. We are proud to recognize their efforts on this special day, and every day!

Harness the **POWER OF THE SUN**

You can partner with LCEC to produce renewable energy to power your home or business! Install a photovoltaic system and if you produce more than you use, we will purchase your excess energy at the same price we pay to purchase electricity from our power supplier.

LCEC
PEOPLE. POWER. POSSIBILITIES.
