DUAL-STAGE PROTECTION from LCEC

POWER TO SHARE

LCEC partners with the United Way to create a program that assists financially strained customers with their electric bill payments.

Customers and employees contribute funds to the program so United Way 211 can administer them to eligible recipients.

LCEC and the United Way are committed to helping people in our community improve their overall quality of life through long-lasting change. By donating to the LCEC Power to Share Program, you can help those who need it the most. Donations to the fund can be made at <https://www.unitedwaylee.org/donate/>.
