### **Currently retired but open to new opportunities.**

**Hotwire Communications- Ft. Lauderdale, FL – 11/2018- 4/2020 – Laid off due to COVID-19**  
**GEMS Group – Product Manager**

Hotwire Communications provides advanced, customized, fiber optic telecommunications services to residential, commercial, hospitality and campus environments. Part of the team developing the newly formed GEMS Group (Government, Education, Medical & Security), leading the development of dynamic growth strategies in new markets. Working cross-functionally with engineering, design, construction, analytics, project management, operations and marketing to design and execute growth initiatives. My current role is leading the development of the design and construction of Smart Cities within the Florida market.

**MasTec - Orlando, FL – 9/2010- 10/2016**  
**TELECOM - Senior Program Manager**

### **Position Highlights:**

#### Project Management

- Telecom management to include Site Acquisition, Zoning, Permitting & Construction.
- New Site Build – LTE – Fiber To Cell - Relocation – Colocations – DAS – Small Cell
- Raw Land - Self-Support – Guyed – Roof Top – Stealth
- Materials – Schedules - Budgets

#### Program Management

- Developed a Recovery and Completion Plan within multiple divisions.
- Built a self-perform construction division.
- Rebuilt credibility with client.
- Gathered and established a centralized database for documentation of the builds.
- Established a system of accountability with the support staff and subcontractors.
- Continued to drive “out-of-the-box” thinking to meet commitments.
- Coached, mentored and led personnel within a technical team environment.
